INTRODUCTION

Architectural Lighting Solutions (ALS) is a market leader which cater to demand of premium linear led lighting. ALS has the largest range in anodized aluminum profile made in India.

ALS manufactures and markets technically up market linear profiles matching aesthetics and quality norms of the best European fixtures available in Indian markets. The company employs full time technical staff, supported by excellent workshop and warehousing facilities.

ALS has successfully completed many prestigious projects during its existence, working on pan – India basis, apart from a network of dealers. Changing concepts to reality has been the forte of ALS – this all comes with competitive pricing, unprotected deliveries and excellent post sales services – creating a win-win situation for all.

ALS enjoys a good reputation among architects, interior designers, lighting consultants and specifiers.
