

INTRODUCTION

Encapsuled's POD is an important innovation in the field of IP68 pre gel filled Connectors.

A thorough development during the design and the pattern phase led to an excellent product which is easy-to-use, minimum sized, extremely reliable as regards its opening and closing for connection change purpose.

The innovatory use of Gel as an insulator allows POD to ensure high insulation capacity, insulation features unchanged over time.

The latest new products and developments are going to the direction to enlarge the applications range of our IP68 Boxes:

- to cover more low & mid power electric specs.
- to be utilized in DALI systems and/or in dimmable applications.
- to offer extremely min-sized boxes which are very compact, but versatile to connect LED equipment's serial and/or parallel.

EASY CONNECTION

- A common terminal block or simple terminals provide the wire connection
- No gasket, glands and sheath
- Any box is supplied by cable clamp for a safe block against pull or push of the cables
- In case of changes in the electric wiring, the box can be opened by a screwdriver, the connection can be re-inspected.

VERSATILITY

- Connection from a feed through wire to the user appliances.

It's possible to connect up to 3 appliances & can be used in multiples.

SAFETY

POD cooperated with the most qualified European Companies in the research and development of insulating GEL which have the

following features:

- excellent sealing and water tightness
- good resistance to chemical agents
- excellent adhesion to any support the material used for the casing
- extreme deform ability and adaptability
- high elastic memory
- high insulating or dielectric strength: min 1,0 kV.

TECHNICAL FEATURES

- IP68 insulation class at 1 metre to 3 metres depth
- Connection protection prevents humidity into the appliance by capillarity
- Containers made in NYLON PA66 Self-Extinguish

POD, in the last few years, has spent efforts to develop the product for the possibilities of use and solutions to protect electrical connections in a difficult environment. Today the POD family offers a wide range of possibilities and can cope with the multiple needs required by the market.

The connectors of the POD family are supplied

with already casted and cross linked GEL. Once cables are joined with the accessories supplied, it is easy to protect the connection by coupling the two parts of the connector.

The GEL will cover cables, the conductors and the electrical connection ensuring electrical insulation and preventing dust and moisture infiltration, between the external surface of cables and the external part of the connector; between the inner insulating layers and the individual conductors. This is a unique feature in the IP68 waterproof connectors. The other products available in the existing market protects only the external insulation of the cable.

The enclosures of our IP68 Gel Connectors are moulded in NYLON PA66 which is having a property of self-extinguishing, UV and at 120°C max. Temperature (in continuous work) resistant.

POD Gel is whole non-toxic, transparent, very good dimensional stability, excellent knock's absorption properties, buffering vibrations and extremely light, latex free and flame retardant.

GEL is mechanically static at temperature between - 30° and 130°C.

ENCAPSULED POD

IP-68 PRE FILLED GEL CONNECTORS

Applications:

Quick, Easy & Clean Joints for
Outdoor Lights | Street Lights | Garden Lights
Fountain Lights | Pool Lights
Solar Lights & Signages

Connections of Outdoor Equipments like
Solar Panels | Motors/Pumps | CCTV's
Loud Speakers | Steam & Sauna Rooms
etc .Protection from:

Protection from:

Frost | Humidity | Steam | Salt Sea Water
Chlorine Water | Chemicals etc.

For many types of Industrial Applications.

Complete with screw connectors

Buffers Vibration and it is Flame Retardant.

Low Smoke and Toxic and corrosive gas emissions.

Re-accessible and with Unlimited Shelf Life.

Wide temperature range -40°C to 105°C.

POD CLICK, The revolutionary Gel connectors with 3 entrances, pre-filled with gel and suitable for submersible installations (IPX8).

Designed in 2 / 3 dimensions to rapidly insulate and seal the most commonly used connectors. The 2 / 3 entrances not only guarantee the extreme flexibility in the range of these products by making possible triple configurations but also by the housing accepting a wide variety of connectors.

- Extremely versatile - Ready to use - Re-enterable
- For rigid or flexible insulated wires up to 6 sq. mm
- Pre-filled with gel with no shelf life.
- Small compact and robust
- Halogen free
- UV resistant

OFFICIALLY
TESTED

Range of fast gel pre-filled straight or branch type joints for 0.6/1 kV multi core cables of up to 5 conductors.

The combination of the primary insulation in a cross-linked polymer gel and the highly robust insulating plastic case makes this a Class 2 joint defined by CEI 64-8. The joint has been tested in accordance with the main international specifications, with repeated flexing and torsion tests and immersion in water, it has been declared as conforming to the mechanical, electrical and sealing specifications required for plastic cable accessories. The joint and its components have an unlimited shelf life, they are chemically inert and therefore completely safe; the connections are re-entrable even after long working periods. Made of self-extinguishing components the joint is flame retardant. For cables at 90°C working temperature.

- Complete with isolated terminal blocks
- For straight and branch connections
- For all types of application, including submersible
- Re-accessible and with no shelf life
- Flame retardant
- Non toxic and safe

IP68
OFFICIALLY
TESTED

Radial closing gel pre-filled joint for extruded insulation cables up to 1 kV.

Primary insulation, consisting of a cross-linked polymer gel, and the exceptionally robust insulating plastic casing render Class 2 joints in accordance with the definitions contained in standard CEI 64-8. The joint has been tested in accordance with the main international specifications, with repeated flexing and torsion tests and immersion in water, and has been declared as conforming to the mechanical, electrical and sealing specifications required for plastic cable accessories. The joint and its components have an unlimited shelf life, are chemically inert and therefore completely safe. Conductor connections are re-enterable even after long periods of operation. Packaged with self-extinguishing material, flame retardant, for cables at 90°C working temperature. The radial closing system facilitates joint application, making them re-enterable only by means of a tool.

- For straight connections (in line)
- For multi core cables of up to 5 cores
- With suitable spacers
- For all types of application, including submersible
- Wide range of cable formations
- Re-enterable only by means of a tool
- Suitable for 3 core crossing
- Non-toxic, with no expiry date

For single core cable: do not install the separator with screw connectors and connect with crimp connector.

RAPID CLICK

IP-68 PRE FILLED GEL CONNECTORS

RAPID CLICK

IPX8 straight joints for 0,6/1 kV extruded cable.

Product	Cable formation and conductor cross sections (n° x mm2)				With optical fibre separator	Dimensions A x B x C (mm)
	1x	2x	3x	4x		
For COPPER cables						
Rapid Click L6	1,5 - 50	1,5 - 10	1,5 - 10	1,5 - 6	-	105 x 55
Rapid Click L10	2,5 - 150	2,5 - 25	2,5 - 16	2,5 - 16	-	180 x 60
Rapid Click L25	120 - 240	6 - 50	6 - 35	4 - 35	-	210 x 65
Rapid Click L95	185 - 400	35 - 95	25 - 70	25 - 70	16 - 50	320 x 100
For ALUMINIUM cables						
Rapid Click L 25	120 - 240	16 - 35	10 - 25	10 - 25	-	210 x 65
Rapid Click L 95	185 - 400	35 - 95	25 - 70	25 - 70	16 - 50	320 x 100

Electrical performance:
CEI EN 50393 with connectors complying with EN 61238-1 (with testing under water head and water between the cable cores) Class 2 in accordance with CEI 64-8.

RAPID CLICK S/ARM

Product	Cable formation and conductor cross sections (n° x mm2)				With optical fibre separator	Dimensions A x B (mm)
	1x	2x	3x	4x		
For copper wire SCREENED cables						
Rapid Click L 10-S	2,5 - 120	2,5 - 10	2,5 - 10	2,5 - 10	-	180 x 60
Rapid Click L 25-S	120 - 185	16 - 25	10 - 25	10 - 25	-	210 x 65
Rapid Click L 95-S	240 - 400	35 - 95	25 - 70	25 - 70	16 - 50	320 x 100
For copper tape ARMORED cables						
Rapid Click L 10-ARM	2,5 - 10	2,5 - 10	2,5 - 10		-	180 x 60
Rapid Click L 25-ARM	16 - 25	10 - 25	10 - 25		-	210 x 65
Rapid Click L 95-ARM	35 - 95	25 - 70	25 - 70		16 - 50	320 x 100

For screened or tape or wire armoured cables

Joint supplied with armour continuity device

RAPID CLICK LS

Product	Conductor sections cross (mm2)	With optical fibre separator										Dimensions A x B (mm)	
		5x	7x	10x	12x	16x	19x	24x	40x	75x	100x		
Rapid Click-LS1	1,5 2,5	•	•	•	•	•	•						180 x 60
Rapid Click-LS2	1,5 2,5			•	•	•	•	•	•				210 x 65
Rapid Click-LS3	1,5 2,5					•	•	•	•	•	•	•	320 x 100

For signalling and control cables

RAPID CLICK T

Unscreened Product	SCREENED Product	N° pairs for conductor cross sections (n° x mm2)	Dimensions A x B (mm)
Rapid Click-T26	Rapid Click-TS26	(1 - 26) x (0,5 - 0,6)	180 x 60
Rapid Click-T61	Rapid Click-TS61	(30 + 1 - 64 + 1) x (0,5 - 0,6)	210 x 65
Rapid Click-T101	Rapid Click-TS101	(60 + 1 - 100 + 1) x (0,5 - 0,6)	320 x 100

Straight joints for telephone cables

FOR IP-68 PROTECTION USE PRE FILLED GEL CONNECTORS

Applications

- Outdoor Lights, Street Lights, Garden Lights, Solar Lights, Pool Lights, Fountain Lights, Signages Etc.
- Can Be Utilized In Dali System Or In Dimmable Applications
- Outdoor Equipments, Motors, Pumps, Filters, CCTV, Loudspeakers, Solar-panels Etc.
- Industrial Applications
- Can Be Used In The Toughest Conditions For Power, Telecom & Signalling
- Applications In Underground, Buried Or Overhead Connections.

Features & Benefits

- Quick, Easy & Clean Sealing of Wire and Cable Joints.
- Reliable Protection Against Humidity & Water (Sea/Salt or Chlorine Water)
- Excellent Sealing From Water & Good Resistance to Chemical Agents
- High Insulation or Dielectric Strength : Min 1,0 Kv
- Unlimited Shelf Life.
- Made in Nylon Pa66 Self-extinguish , Halogen & Uv Resistance
- Gel is Latex Free and Flame Retardant.
- Can Work in Wide Temperature Ranging -40°C To 130°C
- IP 68 Insulation Class at 1 Metre to 3 Metres Depth.
- Straight and Branch Wire & Cable Connections.
- Series and Parallel Wire & Cable Connections.
- Keeps Wire Joints Corrosion Free From Frost, Humid & Steam.
- Frost, Humid & Steam Protection System.

Who can be the Users:-

- **Defence and Border Security Forces**
- **Airports**
- **Railways & Metros**
- **Municipal Corporations**
- **Central & State Public Works Department (CPWD, PWD)**
- **State Electricity Boards**
- **Civil & Electrical Engineers**
- Power & Engineering Departments
- Electrical Consultants
- Lighting Consultants
- Landscape Design Consultants
- Marine Consultants
- Electrical Contractors
- Industrial Buyers.
- Project Developers
- OEM'S
- Renewable Energies (solar Etc)
- Building Maintenance Professionals
- Building Planners and Architects
- Electrical Traders and Distributors
- Large Facilities (Hotels, Malls, Hospitals & Offices)
- Electrical and Lighting Shops
